

CARQUEST® STANDARD AIR FILTERS

Remove air contaminants and restore engine performance with Carquest Standard Air Filters.

- **Construction** — Polyurethane frame provides high tear strength and maintains structural support, metal steel backing material* with anti-rust coating to prevent rust
- **Fit** — 95% filtration efficiency designed to meet OE requirements for form, fit, and function
- **Quality** — Media pleats measured to achieve required filtration efficiency and dust capacity
- **Performance** — Cured filter media increases tensile strength and allows filter to maintain filter pressure requirements without collapse

*Varies by application.
