Premium Filters Designed To Outperform

Carquest Premium oil filters are built to meet or exceed OE specifications for long-lasting engine protection. Designed for use with premium conventional or synthetic oil, these filters keep oil cleaner for longer periods of time, and meet all new car warranty requirements.

- There is a heavier concentration of synthetic materials in Carquest Premium filters, giving them a higher efficiency rate
- Solid metal center tube is engineered to optimize oil flow
- OE blended media for up to 10,000 miles protection

- 1 Leaf spring
- 2 Precision bypass valve ensures optimal oil flow
- 3 OE synthetic blend media for greater capacity and longer life
- 4 Durable silicone anti-drain back valve for engine start-up protection
- 5 Internally lubricated nitrile seal gasket

Redefining The Standard Filter

Carquest Standard oil filters are built to meet OE specifications for fit, form and function. Engineered for use with all motor oils, Carquest standard filters use blended media to promote enhanced engine protection.

- Carquest Standard filters (red) have an efficiency rating of 96% at 20 microns*
- We lead the industry in efficiency rating for entry level filters
- Solid metal center tube is engineered to optimize oil flow

* According to in-house testing that determined the efficiency of Carquest Standard filters under ISO 4548-12 for particles greater than 20 microns.

- 1 Leaf spring
- 2 Precision bypass valve ensures optimal oil flow
- 3 Cellulose fiber media for reliable engine protection
- 4 Nitrile anti-drain back valve for engine start-up protection
- 5 Internally lubricated nitrile seal gasket

Carquest Fuel Filters

Our premium Carquest Fuel filters meet OE specifications and are designed for the professional installer. Quality and performance testing ensure that only premium products are in our Carquest box.

- In benchmark testing, Carquest fuel filters have a 99.9% filtration efficiency at 20 micron (comparatively SAE1234 requirements are for 95% filtration efficiency)
- Includes dual fuel line clips for easy installation
- Hard press seam prevents leaks
- Galvanized coated steel finish prevents filter rust

Carquest Air and Cabin Air Filters

Carquest Air and Cabin Air filters are performance tested to ensure reliability and performance. These filters are designed to ensure air pollutants and contaminants are removed to provide optimal function of the engine and a comfortable cabin environment.

Cabin Air Filters

- Filter media is non-woven fiber
- Filter cleans and freshens air by reducing pollen and dust in vehicle
- Meets 95% of filtration efficiency (ISO 11155-1 sets for 95% minimum)
- Also available with active carbon added into filter media for odor improvement (CFI90146C, select applications only)
- Flow arrow indicates “in and out” air for easy installation
- Recommended maintenance — The air inside the cabin can be dirtier than air outside the vehicle. Change the cabin air filter every 12,000 miles

Air Filters

- Meets 99% of filtration efficiency (SAE J726 sets for 95% minimum) at 20 microns
- Consistent filtration area for maximum efficiency
- Paper is heated before bonding to improve strength and durability
- Recommended maintenance — The air filter is the first line of defense for an engine
- Change the air filter every 12,000 miles

OE Coverage You Can Count On

Carquest filters deliver the exceptional level of coverage, quality and performance you expect from a national brand. That's because our manufacturers adhere to the same rigorous testing standards as other national brands to ensure our parts meet or exceed OE specifications. In fact, our light duty filter manufacturer is a leading partner with major OE manufacturers.

The manufacturer of Carquest filters is OE for the following vehicle brands:

mazda

TOYOTA

CATERPILLAR

Mercedes-Benz

CHRYSLER

JOHN DEERE

All trademarks are the property of their respective owners.

Carquest Heavy Duty Filters by Baldwin

Carquest Heavy Duty filters' rigorous testing ensures maximum heavy duty performance.

Spin-on lube design innovations:

- Cellulose/synthetic blend media
- Spiral wound louvered center tube
- Radial post seal
- Complete heavy duty agriculture coverage

Designed to meet or exceed OE specifications, Carquest Heavy Duty filters supplied by Baldwin deliver the high level of quality and vehicle coverage you need.
